Greater Boston, MA (Remote) | Email: available upon request | LinkedIn: linkedin.com/in/andrew-davis

PROFESSIONAL SUMMARY

Dedicated AI Trainer and Ethics Analyst committed to fostering responsible AI systems and advancing human–machine collaboration. Skilled in identifying bias, refining training data, and implementing ethical frameworks to ensure fairness, transparency, and trust in AI applications. Currently expanding expertise through advanced Udemy certifications focused on AI systems development, automation, and ethical oversight.

CORE SKILLS

• Responsible AI Development & Ethics Oversight

• Data Analysis & Bias Mitigation

• Machine Learning Fundamentals (Supervised & Unsupervised)

• Human–AI Collaboration & Workflow Design

• Prompt Engineering & Context Control

• Recommendation Systems & AI Integration

• Research, Documentation, and Reporting

PROFESSIONAL EXPERIENCE

AI Trainer & Ethics Analyst — Self-Employed / Nobility Music / Team REI LLC (Oct 2025 – Present)

• Develop and apply responsible AI frameworks aligned with human-centered design principles.
• Train AI systems for contextual accuracy, ethical consistency, and social impact awareness.
• Oversee adaptive learning loops ensuring transparent, bias-free machine learning outcomes.
• Collaborate on creative and technical integration projects linking AI, music, and digital strategy.

EDUCATION

Udemy — AI Training & Certification Track

• Zero to AI Hero (No Coding) — Completed

• The Complete AI Coding Course (In Progress, 2025)

CERTIFICATIONS

• Certified AI Fundamentals (Udemy, 2025)

MISSION STATEMENT

To guide the evolution of AI systems toward fairness, awareness, and alignment with human values — ensuring technology enhances humanity rather than replaces it.
