Andrew Davis — AI Implementation Strategist • Ethics Architect • Prompt Engineer

■ teamreillc@gmail.com | ■ GitHub / Portfolio: andrew-davis-ai-portfolio.github.io/Andrew-Davis-Ai-Portfolio-/ | ■ Remote / U.S.

Professional Summary

AI Implementation Strategist and Ethics Architect specializing in responsible AI integration, reinforcement learning from human feedback (RLHF), and business-driven automation. Certified across prompt engineering, no-code AI systems, and machine learning deployment, I bridge technical precision with human-centered ethics to help organizations implement trustworthy AI solutions that scale safely and profitably.

Core Certifications

• Certified AI Implementation Professional (CAIIP) — YouAccel / Udemy (2025)
• The Complete AI Coding Course (No Code) — Cursor, Claude Code / Udemy (2025)
• Advanced Prompt Engineering & AI Mastery Bootcamp — Udemy (2025)
• Zero to Hero in AI & Machine Learning (No Coding) — Udemy (2025)
• AI Ethics 2025: Work with AI Responsibly — Udemy (2025)

Technical Proficiencies

• AI Systems & Workflow Integration: n8n, Zapier, GPT API, Make (Integromat)
• Prompt Design & Optimization: LLM instruction tuning, context layering, persona modeling
• Ethical Governance: Bias auditing, transparency protocols, safety layer design
• Data Pipelines & Feedback Loops: Annotation review, reinforcement modeling (RLHF)
• Automation Strategy: Business process mapping and no-code deployment architecture

Mission Statement

"AI is today's digital gold rush — the future is cheap for those who see it early and act ethically."
